QUALITY POLICY

TİTAN2 IC İÇTAŞ İNŞAAT ANONİM ŞİRKETİ is a joint Russian-Turkish venture created for the construction of *Akkuyu NPP*.

The accumulated competences of *TİTAN2 IC İÇTAŞ İNŞAAT ANONİM ŞİRKETİ* employees allow to ensure the best results of both general contractor's functions when building capital construction or nuclear facilities and management in design and supply of material and technical resources.

The priorities of our Organization are:

- Ensuring reliability and safety in the process of both general contractor's functions when building capital construction or nuclear facilities and management in design and supply of material and technical resources.
- Achievement and maintenance of high economic performance.

TİTAN2 IC İÇTAŞ İNŞAAT ANONİM ŞİRKETİ Management shall:

- Ensure the implementation of activities in accordance with the legislative and other regulatory requirements of the Republic of Turkey and the Russian Federation, the requirements of Rosatom State Corporation for Atomic Energy, the Customer, public organizations and in accordance with ISO 9001:2015 and own requirements applicable to Organization's activities.
- Ensure a high quality level of works performed and services rendered that fully meet Customer's requirements and expectations.
- Improve its management system due to process-oriented and risk-oriented approaches at all levels of the Organization as well as due to making informed management decisions based on latest, full and reliable information.
- Systematically examine the expectations and needs of the Customer, analyse satisfaction with Organization cooperation.
- Manage risks and opportunities in the implementation of business processes taking into account the objectives of the Organization, possible changes in external conditions, needs and expectations of the Customer.
- Constantly improve the quality of works, rationalizing the methods of monitoring performance and arrangement of works by introducing advanced scientific and technical solutions.
- Constantly improve the level of competence and qualification within the staff. Motivate the staff to address priorities more efficiently.
- Strive for long-term mutually beneficial cooperation with reliable suppliers that ensure competitiveness and high quality of services provided by them, flexibility of response and compliance with the requirements of the Organization to increase Customer's satisfaction.

TİTAN2 IC İÇTAŞ İNŞAAT ANONİM ŞİRKETİ Management assumes responsibility for creating conditions and allocating necessary resources for implementation of this Policy and expects all employees to understand and fulfil its requirements in the process of production activities.
